

Display Tubes

for By-The-Foot Sales & Easy Shop Access

RETAIL KITS &
DISPLAY TUBES

Whether mounted on a wall with wire and cable spools for impulse sales or sitting on a workbench for easy access to material for cutting and fabrication, these display tubes are an ideal way to manage and monitor your spools of sleeving or heatshrink tubing. Available in 3 standard styles.

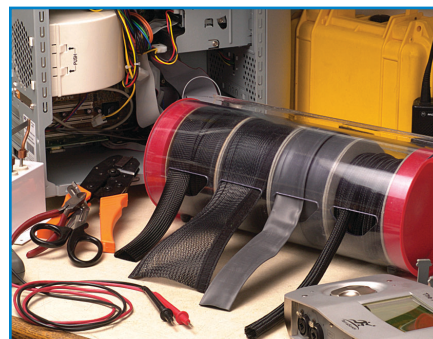

Display Tube Packages

Your Account Representative can help you select customized assortments of spooled materials suitable for your particular application, shipped in refillable acrylic display tubes for easy access and control.

Our experience allows us to confidently recommend the most appropriate selection of colors, sizes and materials for virtually any situation.

Whether you need to stock your service or repair shop with the right material to have on hand for special services, or you want to make an assortment of sleeving available to customers for by-the-foot impulse sales, we can help you maximize your profitability with the right product mix, in the right colors and sizes, at the right price.
